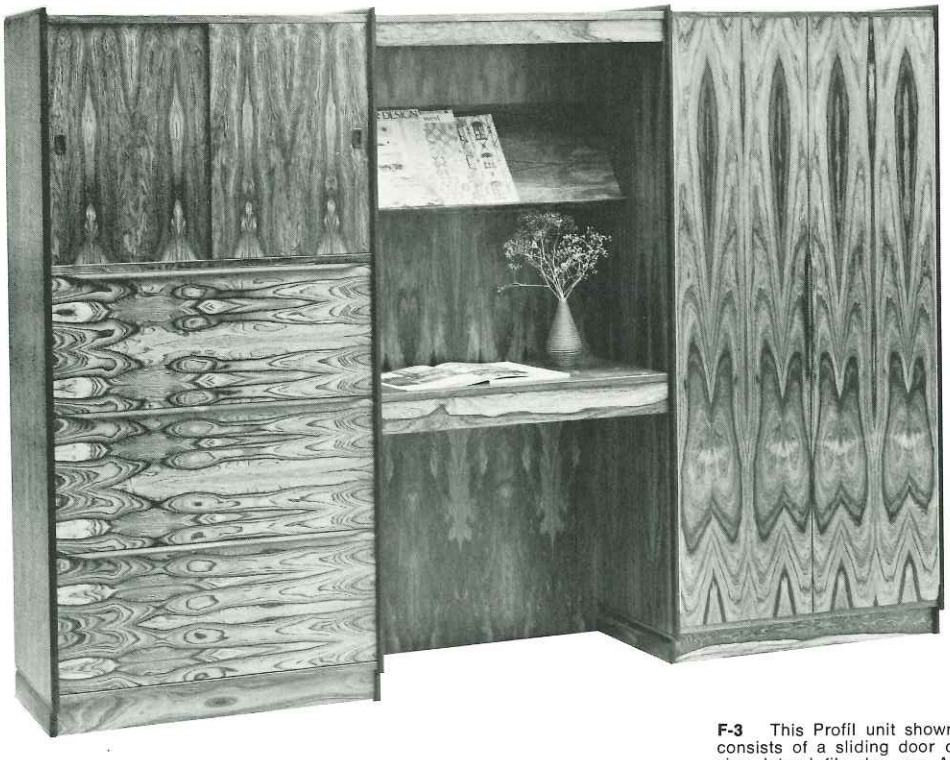
PROFIL WALL

A-4 The Profil Wall System is a handsome and functional background for the executive office. File drawers, desk unit and generous storage cabinets are suspended from Deluxe Wall Struts with flush Rosewood Panels between. Book and display shelving provide finger tip reference with adequate space for all of those favorite things. A Profil desk (P 3772 AC) and swivel/tilt chair (532 96) complete the picture.



F-3 This Profil unit shown in Brazilian Rosewood consists of a sliding door cabinet over three, legal size, lateral file drawers. A unique feature permits only one drawer open at a time. The center work area with back panel features a concealed light strip, magazine shelf and efficient desk with knee drawer. The large double-door closet accommodates coats, hats and umbrellas . . . . . or with shelves, the bulkiest of storage problems.

Q-4 Profil Wall unit illustrating one of the many combinations possible with the Profil Wall System. Free-standing cabinets on kick (shown) or leg bases support a variety of door and drawer cabinets, shelves and special features such as the concealed light strip over the desk unit. Steel stacking pins insure perfect vertical alignment and stability of shelf and cabinet sides.

A-3 Profil Wall shown in Bankok Teak with cabinets and shelves suspended from matching wall struts. Like all Profil units, modular components can be rearranged as need or preference dictate. A simple unit can be installed initially with more components added as additional storage or shelving is required. Elegance, practicality and unexcelled quality are just a few of the many reasons why Profil is the ideal solution for putting a wall to work.

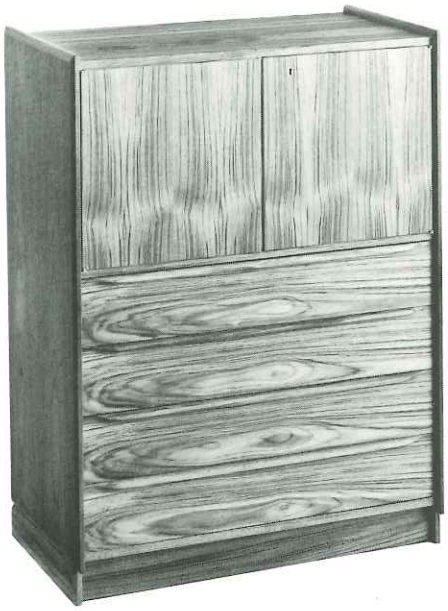
The components in the Profil Wall System (Free-Standing or Wall-Hung) were designed with the office installation in mind. The lateral and horizontal file drawers as shown are finely crafted cabinets and are offered in Teak, Walnut, or Rosewood. The Accuride (150 pound test) file drawer suspension hardware insures trouble free action.

4-35-35-35-35K Profil Sideboard
Teak, Walnut, or Rosewood on Kickbase
Four banks of drawers
Size: 65W, 18D, 28H

4-62-62C Four Drawer Lateral File
Teak, Walnut, or Rosewood with Kickrail
Four drawers
Size: 65W, 18D, 30H

4-36-24-36K Profil Sideboard/Dresser
Teak, Walnut or Rosewood on Kickbase
Size: 64¾W, 18D, 28H

The components of the Profil Wall System (Free-Standing or Wall-Hung) are adaptable for residential use. Handsome units provide stereo and book storage as well as drawer and cabinet configurations. Profil components and matching headboards and mirrors provide quality bedroom furniture for the contemporary home or hotel.



3-18-24K Profil Dresser/Cabinet
Teak, Walnut or Rosewood on Kickbase
Size: 32¾W, 18D, 44H

1462 Series Mirrors
Oak, Teak, Walnut or Rosewood Frames

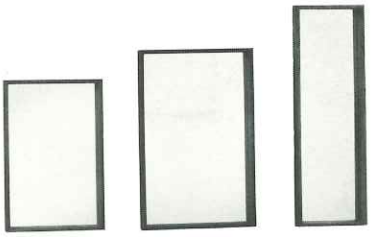
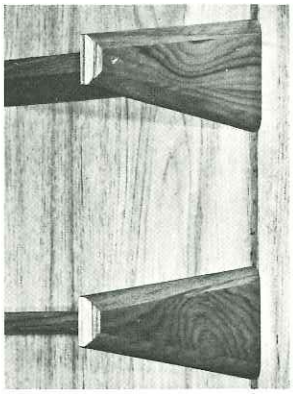
1462-045: 45x15

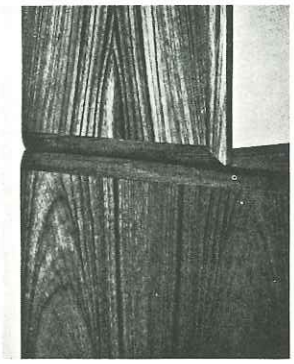


1461-062 Queen Size Headboard
Oak, Teak, Walnut or Rosewood
Size: 62W, 37H
Refer to Price List for other sizes
7-34K Profil Nightstand
Teak, Walnut or Rosewood on Kickbase
Size: 17W, 18D, 28H



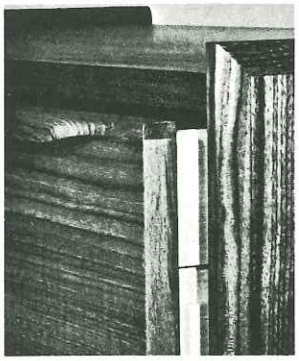
The Deluxe Wall Strut and Panel join to form one continuous flush surface of very functional wall paneling.

The shelf bracket illustrates how PROFIL brackets and cabinets are attached to the wall struts. Brackets and all PROFIL components are made of veneered, lumber-core stock with finely detailed ¾" thick edges of Teak, Walnut or Rosewood.



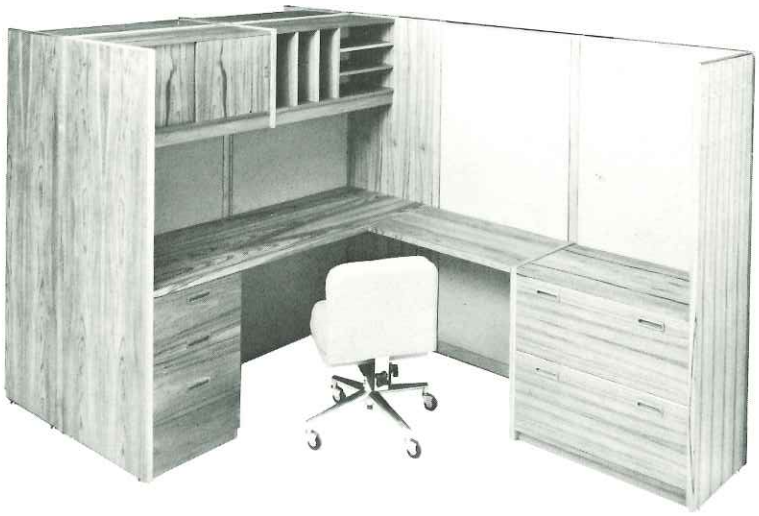
PROFIL can be utilized without wall struts, supported by base cabinets on leg or kick bases. Shelf and cabinet sides are utilized instead of brackets, and a concealed stacking pin assures the alignment and stability of each vertical unit.

The functionally contoured drawer pulls, flawlessly mitered corners and smooth-gliding drawers are all evidence of the superb quality of every PROFIL component.



Evolutionary . . .
Scandiline's FREE-STANDING OFFICE.
Developed from a decade of
experience with our Profil Collection,
FSO is a proven, second-generation
system offering more configurations and options
than most. Available in
American Black Walnut or Bangkok Teak.

FREE STANDING OFFICE for the executive provides the ultimate — beautiful wood with functional efficiency. The **FACET SERIES TABLES** with their inviting individual seating spaces are offered in both hexagonal (with three legs as shown) and octagonal shapes.



FREE STANDING OFFICE has virtually unlimited configurations to fit your working requirements. Teak or Walnut. Fabric covered acoustical tackboard panels are offered in contemporary colors.

Designer Stan Hutchinson has combined **Scandiline's** Profil components with a fresh concept in panel assembly and materials, thus providing the lover of wood with a functional solution to open office design.

THE SCANDILINE PRODUCT

is a testament to quality and design.

Our industry is currently faced with shortages, not to mention materials that do not meet historic standards. This has forced the making of concessions by many furniture makers.

Scandiline refuses to concede to such alternatives and quite naturally this has affected our costs. You have flattered this judgment decision by your continued and increasing purchase of The Scandiline Product, and we thank you.

For an example of the design and quality mentioned, thumb back to page 9 and glance at our RK 3972 Desk. We have found few cabinet makers in the world able and willing to accommodate to our severe specification standards. Sixty-four man hours are required to complete this one desk, and we proudly acknowledge its perfection. The living vibrancy of the wood is unique. Veneers are carefully matched and selected and only the highest quality of Brazilian Rosewood and Bangkok Teak is accepted. This combination of superb materials and master craftsmanship guarantees you a work of furniture art.

Although it is natural that items such as the RK Desk cannot be mass produced, Scandiline does maintain a sizeable and adaptable inventory. The Scandiline product is, for all practical purposes, ready when you are.

Look through this brochure again. It contains only a partial display of the extensive Scandiline offering. Each piece is compatible with its counterpart. They work together as units or exist as individuals.

Our representatives are listed on the back cover. They are ready to introduce you to The Scandiline Product. Many have showrooms or display with local contract furniture dealers. Factory showrooms are maintained in New York City, San Francisco, Chicago and, of course, at our Compton, California headquarters.

Very truly yours,
SCANDILINE INDUSTRIES INC.
